

## DJI Neo Release Notes

---

Date:	2024.11.06
DJI Neo Firmware:	V01.00.0400
DJI Fly App:	V1.15.4

---

### What's New

- Added support for vertical shooting. Select the corresponding ratio in resolution settings for this mode.
- In Mobile App Control, added support for manual control in full screen and control stick mode switch in Control settings.
- Supported to set the noise reduction effect for audio recording to a natural style to preserve ambient sounds.
- Optimized positioning performance and increased flight speed during tracking.
- Fixed some known issues.

### Notes:

- Restart the device after the firmware update is complete.
- Note that the firmware update may reset various flight parameters. Before updating, take note of your preferred settings and readjust them after the firmware update is complete.
- If the update fails, restart the device and the DJI Fly app or DJI Assistant 2, and try again.
